

General Microbiology Revisions and New Information  
March 27, 2020

1. I will hold office hours by appointment. If you wish to meet with me via Zoom, send me an email and we can set up an appointment. As always, my personal join URL is <https://temple.zoom.us/j/6254994977>.
2. Lecture Exam #3 is on Tuesday, March 31<sup>st</sup>. You will have 80 minutes to take the exam. The exam will be available from 9:30 – 11:00 am. I have test question banks for both the multiple choice and short essay questions. For the exam, each student will randomly get 20 multiple choice and 6 short essay questions.
3. For the research seminar, I have decided on a more direct way for students to present their talks to the entire class. Here's the plan. Communicate with your group members regarding practicing for the seminar ahead of time. **DO NOT RECORD YOUR SEMINAR! YOUR SEMINARS WILL BE GIVEN LIVE ON ZOOM.** On the day of our class meeting (e.g. Tuesday, April 21<sup>st</sup>), the first 5 groups will present their talks. One person of a group will be responsible for: a. sharing their screen of the power point with the rest of the class; b. advancing the slides during the presentation (Other group members can cue the student as to when to advance a slide.); c. using the Stop Share after the presentation. The remaining groups will then present their talks in the same way as previously described. Your seminar will be timed. Fifteen minutes is the maximum. If your seminar runs below 10 minutes or above 15 minutes, you will lose a few points. As always, if you have any questions beforehand, please just ask.

Best,  
Dr. McGowan
